SUMMARY

Full Stack Developer and Computer Engineering student with hands-on experience in Android and web application development. Demonstrated ability to design, build, and ship production-grade software using modern frameworks including React, Node.js, and Android (Java/Kotlin). Proven track record of delivering end-to-end solutions in professional internship environments, with a strong foundation in data structures, algorithms, databases, and software engineering principles.

WORK EXPERIENCE

Mobile App Development Intern · Elsner Technologies Pvt. Ltd.

Aug 2023 – Sep 2023

Ahmedabad, Gujarat, India

- Contributed to end-to-end feature development on a production Android application using **Android Studio**, **Java**, and **Kotlin**, directly participating in sprint cycles alongside senior engineers.
- Architected and implemented responsive, pixel-perfect UI layouts following Material Design guidelines, reducing UI inconsistency issues identified in QA by an estimated 30%.
- Integrated RESTful APIs into mobile views, enabling real-time data rendering and improving data-fetch reliability across app screens.
- Conducted systematic debugging and real-time testing across device emulators and physical hardware, identifying and resolving critical runtime issues prior to release.
- Collaborated with the UI/UX team to enhance interface workflows, improving application usability and overall user experience.

Android Development Intern · Elsner Technologies Pvt. Ltd.

Sep 2022 – Oct 2022

Ahmedabad, Gujarat, India

- Built functional Android application prototypes from scratch using **XML-based layouts**, **Java**, and **Kotlin** under structured mentorship from senior developers.
- Implemented reusable UI components and managed activity/fragment lifecycles, establishing a strong practical foundation in Android's application architecture.
- Learned and applied mobile development best practices including layout optimization, view binding, and modular component design within a professional engineering environment.

TECHNICAL SKILLS

Languages:	Java, Kotlin, JavaScript (ES6+), Python, SQL, XML, HTML5, CSS3
Frontend:	React 19, Tailwind CSS 4, Vite, Material Design, Responsive Web Design
Backend:	Node.js, Express.js, REST API Design, JWT Authentication
Databases:	MySQL, Firebase Realtime Database, Sequelize ORM
Mobile:	Android Studio, Android SDK, Lottie Animations, MPAndroidChart
Tools & Platforms:	Git, GitHub, Postman, VS Code, IntelliJ IDEA, Netlify
CS Fundamentals:	Data Structures & Algorithms, OOP, DBMS, OS, Computer Networks
Soft Skills:	Leadership, Problem-Solving, Communication, Teamwork, Adaptability

PROJECTS

SAL Education — College Attendance Management System

2026

React 19 - Node.js - Express - MySQL - Sequelize - Tailwind CSS 4 - JWT - Vite

- Designed and developed a full-stack web application from the ground up to digitize and automate attendance tracking for an engineering college, eliminating manual paper-based processes for **3 distinct user roles**: Admin, Teacher, and Student.
- Implemented a **JWT-based role-aware authentication system** with route-level access control, ensuring secure, permission-scoped access across all modules.
- Built a real-time digital attendance engine with lecture slot and timetable management, reducing administrative overhead through automated scheduling workflows.

- Developed a leave application module with a structured multi-step approval workflow, enabling end-to-end request tracking from submission to resolution.
- Architected a RESTful backend with Sequelize ORM and MySQL, ensuring normalized data modeling and efficient query performance under concurrent user sessions.

SHIMP — Personal Expense Tracking Android Application

2023

Android Studio · Java · XML · Firebase Realtime Database · Material Design · Lottie · MPAndroidChart

- Engineered a feature-complete Android personal finance application enabling users to log, categorize, and analyze income and expenses in real time.
- Integrated **Firebase Realtime Database** for seamless cloud synchronization across devices, ensuring zero data loss on session termination or device switch.
- Implemented interactive financial analytics using **MPAndroidChart** with dynamic pie and bar charts, giving users instant visual insight into spending patterns.
- Delivered a polished, production-ready UI following **Material Design** guidelines, enhanced with **Lottie** animations for a smooth, professional user experience.
- Designed a comprehensive dashboard aggregating total income, total expenses, and net balance, enabling users to track financial goals at a glance.

EDUCATION

Bachelor of Engineering (B.E.) — Computer Engineering

Aug 2024 – Jul 2027

SAL College of Engineering · Gujarat Technological University (GTU)

Relevant Coursework: Data Structures, DBMS, OOP, Algorithm Design, Advanced Java, Web Programming, AI, Machine Learning, Mobile App Development, IoT

Diploma in Computer Engineering

Oct 2021 – Jul 2024

SAL Institute of Diploma Engineering (SIDS) · Gujarat Technological University (GTU)

CGPA: **8.63 / 10** · Relevant Coursework: DSA, Python, RDBMS, Responsive Web Design, Android Development, Fundamentals of AI, ML, IoT, NoSQL

Secondary School Certificate (SSC)

May 2021

Shree Swaminarayan International School

CERTIFICATIONS

Android Development Internship

Elsner Technologies Pvt. Ltd.

Aug 2023 · 45 Days

Android Development Internship

Elsner Technologies Pvt. Ltd.

Sep 2022 · 15 Days

LEADERSHIP & ACHIEVEMENTS

Senior Anchor — Student Induction Program · SAL College of Engineering

Jul 2025

- Served as the lead stage anchor for the annual student induction ceremony, managing end-to-end event flow including guest introductions, program pacing, and live audience engagement for an audience of several hundred incoming students and faculty.
- Demonstrated strong public communication and leadership under pressure, earning recognition for maintaining professionalism and composure throughout a multi-hour live event.
